

CommonDeviceInterface

```
classDiagram
    DemoDevice --|> CommonDeviceInterface
    SerialDevice --|> CommonDeviceInterface
```

The diagram illustrates a class hierarchy. At the top is the 'CommonDeviceInterface' box. Below it, a horizontal line connects two boxes: 'DemoDevice' on the left and 'SerialDevice' on the right. From the center of this horizontal line, a vertical arrow points upwards to the bottom of the 'CommonDeviceInterface' box, indicating that both 'DemoDevice' and 'SerialDevice' inherit from or implement 'CommonDeviceInterface'.
